

Features

- 1 Three-way syringe (air/water/spray) with sterilisable tips (hose and tips detachable)
- 1 Electric micromotor with LED light (0-40,000)
- 1 Electric scaler with LED light
- Instrument hoses detachable
- Spray adjustment regulators for each instrument
- Integrated spray water system for syringe and instruments (check valve prevents the back flow of water)
- 1 Spray water tank: 0.75 litres
- 1 High-performance suction hose 220 l/min. Continuously adjustable. Patent-pending BPR Swiss technology
- Adapter for saliva ejector tips and oral-dry-cup
- 1 Suction fluid container: 1 litre (automatic overflow protection)
- Pressure regulator-filter
- Sturdy, air- and water-tight case, will not scratch, dent or corrode
- Detachable front cover
- Disc type foot control
- Integrated silent compressor – oil-free: Max. Pressure: 4 bar
- DENTA-TROLLEY with drawers for instruments and consumables

Technical Data

- Operating pressure: 3-4 bar
- Each instrument is individually adjustable
- Weight SMART-PORT: 12 kg
- Weight DENTA-TROLLEY: 8 kg (space for instruments and consumables)
- Dimensions SMART-PORT: 380mm x 205mm x 530mm
- Dimensions DENTA-TROLLEY: 410mm x 400mm x 550mm

Warranty: 2 years

Options: Contra-angles, air polisher module, additional electrical motor, DENTA-CASE etc.

Smart-Port

The lightness of being

The cleverly designed SMART-PORT integrates the most important functions and operations of a dental treatment unit in a single 12-kilogram case.

To activate the SMART-PORT simply insert the power plug into an outlet. The integrated electric micromotor with LED light and the integrated electric scaler with LED light both have full performance capability.

Through the use of various contra-angles, speeds of between 0-200,000 rpm can be achieved. The high performance of the SMART-PORT is complemented by a highly efficient patent-pending suction (220 l/min!).

In addition to its unparalleled performance, the SMART-PORT offers all-around convenience. The clever design allows for quick and easy assembly and disassembly of the unit. In addition, the SMART-PORT has a remarkably quiet oil-free compressor and convenient externally removable instrument hoses.

12 kg

Self-contained high-performance suction 220 l/min

Easiest transport: Rollable & Portable

Full performance of all handpieces

Piezo electric scaler with LED

Electric motor with LED

Silent oil-free compressor

- Continuous Operation
- Full Performance
- Plug-and-Play
- All-in-One
- Portable/Light
- Mobile/Rollable

4 drawers for instruments/ consumables
Separation red and green zone

On a single trolley transport of unit/instruments/consumables

Rollable and portable: In case of obstacles or for stowage the unit is undocked
